Presho (SD) Livestock Auction

BULL SALE

Monday, April 27, 2015 • 1pm CT

Presho Livestock Auction, Presho, SD

60 Yearling Angus Bulls

Free Bull Delivery up to 200 miles

Lunch: Please come early and join us for a complimentary lunch!

Inspection: Come to the ranch anytime before the sale. Call us at (605) 895-2203.

Bids: Can be left with Auctioneer or Ma & Pa Angus. All bids will be handled with the utmost integrity.

Terms & Conditions: All cattle sell according to the standard terms and conditions of the American Angus Association.

First Year Breeding Guarantee: All bulls selling for \$2,000 or more will be given 50% of the value of the injured bull, minus any salvage value, in a future sale or toward a replacement bull if one is available. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured animal being sold for salvage. All claims must be made by September 1, 2015.

Example 1: A \$5,000 bull is injured and will not heal. A credit for \$2,500 minus any salvage value will be given to the buyer.

Example 2: A \$1,750 bull is injured and will not heal. No credit is given. Buyer retains all salvage value.

Health: All bulls will pass a semen test before sale. The entire herd is on a complete vaccination program. A representative from the Animal Clinic, Winner, SD, will be at the sale – or call them at 1-800-808-8996.

Semen Interest: Ma & Pa Angus will retain a one-third semen interest in all registered bulls selling. Buyer owns full possession and salvage value.

Announcements: Announcements from the block take precedence over any printed matter.

Bad Weather: Listen to KGFX 1060 AM if weather is threatening.

Liability: All persons who attend the sale do so at their own risk, and Ma & Pa Angus assumes no liability, legal or otherwise, for any accidents which may occur.

Sale Day Phone: Presho Livestock Auction (605) 895-2553; Steve's Cell Phone: (605) 391-1450

Auctioneer: Ron Volmer (605) 895-2378

Welcome to our 18th Annual Bull Sale!

There are more places to purchase a bull than places to fill your pickup with fuel. We thank you for taking time to read this catalog and consider our "program". Our program is a no-nonsense approach to raising registered Angus cattle in a commercial cattle environment. Culling is year around. The cows are pregnant in the fall or they go to town-just one calving season. Cows calve in a river hills pasture and are expected to protect and nurture that calf to a lucrative weaning weight. No creep feeders allowed.

Our weaning weights are much heavier this year! The feed salesman says it's because of the mineral that we used. The American Angus Association explains that by using EPD's we've improved our herd. The semen suppliers give credit to the genetics and the John Deere dealer would say it's the tractor! The truth is that we FINALLY had a wet spring and good grazing throughout the summer and fall. THAT'S what environment testing is all about. Cattle that survive the tough years will THRIVE in the good years. Ever wonder how some outfits have the same heavy weaning weights year after year?

We are excited about this year's set of bulls-not because they are better than ever before- but because we know that the cows behind them have been TESTED in the past. We know what these bulls can do and we guarantee them.

The bulls are all very gentle and in that "what you see is what you get" condition. They have already passed a semen test and have had their breeding shots. Scrotal circumference measurements are available on a supplement sheet.

All cattle are available for your inspection at the ranch before the sale. We welcome your visit. If we can offer any information or assistance, feel free to contact us.

*Sincerely,
Steve, Deb, Sage, & Shilo*

Woodrow was purchased at the 2012 Deep Creek Angus Bull Sale to use on our heifers. While he did not have the calving ease we hoped for, his performance is way over the top. His sons are massive with a straight top. His daughters are wide and feminine. Expect to see more progeny from our cow herd.

9112's dam is perhaps the best Angus cow to ever walk these White River Hills. (Sorry, George) She is an easy fleshing Pathfinder - NR 11/102 and is still walking the hills at 13 years of age. 9112 combines the Emblazon and EXT blood as good as any I've seen.

Good Day's dam came to us as a bred heifer from the famous Gartner-Denowh Angus Ranch in Montana. Most notably, she is a maternal sister to the popular GDAR Game Day at Genex. At 14 years of age, she left the herd: BW 12/92, NR 12/102. Good Day's sire is the once-nationally ranked carcass sire, Ma & Pa Feature Presentation. (Good Day's IMF ratio: 116, REA ratio: 110.) To date, Feature Presentation is the crown jewel of our program. Ma & Pa Good Day combines the best of our genetics with the best of the GDAR.

Cole Creek 1100 Black 452 is line bred to the popular Cole Creek Black Cedar 46P. He had a 114 NR and 112 YR. He lost weight during the breeding season, as he should, but was amazing in his post-season recovery on only grass. That's the way he's bred and that's the way he functions. We look for tremendous females from 452.

Sinclair Excellent 9XE3 is an extremely unique individual. On his dam's side every cow for ten generations is a negative EPD for birth weight - that's back to 1936! Among 140 contemporaries he was an outlier, indexing 120 for both weaning and yearling weights. His first 27 calves all came unassisted from first-calf heifers. Very limited semen is available from Ma & Pa Angus.

REGISTERED OR PUREBRED?

You may notice some of our bulls do not record EPDs (Expected Progeny Differences). These individuals are purebred Angus but cannot be registered because of the uncertainty in their sire parentage a few generations back. Years ago - before parentage tests were available - whenever we were not ABSOLUTELY certain if a calf was from AI or natural service, that calf was not papered and deemed "purebred commercial". We have kept a few of these replacements each year since our beginning.

These purebred cows and calves are recorded at the American Angus Association and ratioed just as the registered ones. For our customers' protection, they are also tested for any genetic defects that the AAA may warn us of.

Today, with parentage testing available, we can use multiple sires in a pasture and still be certain of sire parentage. Seventy percent of our herd is registered and thirty percent is purebred. They run as one herd with no consideration for either group. This purebred commercial group has proven very useful to us as we introduced new AI sires into our herd. New sires were first tried in this group and only when they had proven themselves were they used on the registered cows.

In summing it up, the purebred individuals do not come with EPDs that are sometimes useful. But we feel that we can still know what to expect from their progeny by using birth weights, weaning weights, feed tests, carcass ultrasound, and by living with them 365 days a year!

- Goes back to that good ol' 034 cow

Where'd ya get that name?

We had been searching for a name for our registered Angus herd for over a month when we went to New Underwood to spend time with Deb's parents. The next morning over a large breakfast Deb's dad, Bob Bruner (Bruner Trucking), was telling fishing stories when he told about staying at a "Mom and Pop" motel. I asked "just what is a Mom and Pop business?" Bob replied, "Well, a mom and pop motel is usually a clean, well kept little motel that's run by a couple without much help."

That pretty well summed up our outfit! We shortened it to Ma and Pa to make more space available for names on registrations.

Thanks, Bob, we miss you.
